

Important Tirzepatide Medication Update

1/20/2026

Please be aware of the latest pharmacy changes to our compounded Tirzepatide:

- The medication will continue to have B12 but will no longer contain Glycine.
- The concentration has been increased from **10mg/mL to 20mg/mL, which decreases the injectable volume by half.**

These changes will not affect the dosage or efficacy of the medication.

If you have any questions or concerns, please don't hesitate to contact our office. We're happy to help.

Sincerely,

Total T Clinic
